Overall view of shop.

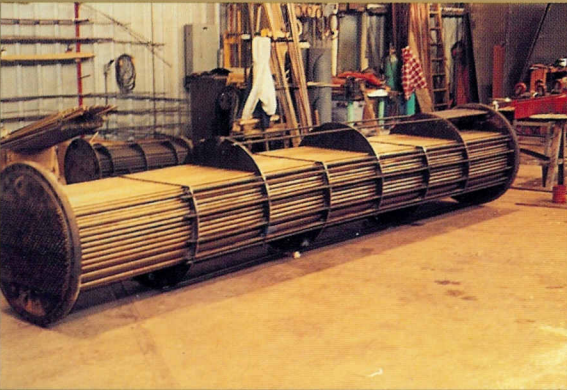

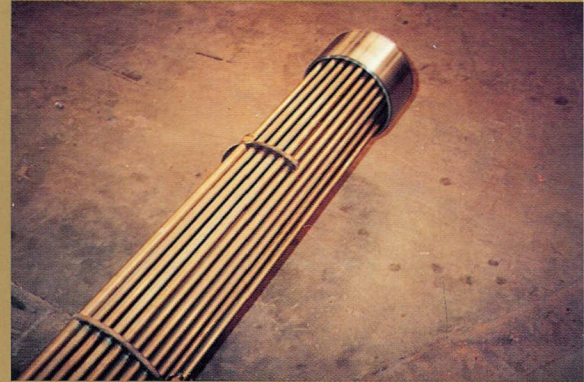

Intercooler and Aftercooler baffles are drilled to a tight tolerance hole for less vibration at baffle to tube contact.

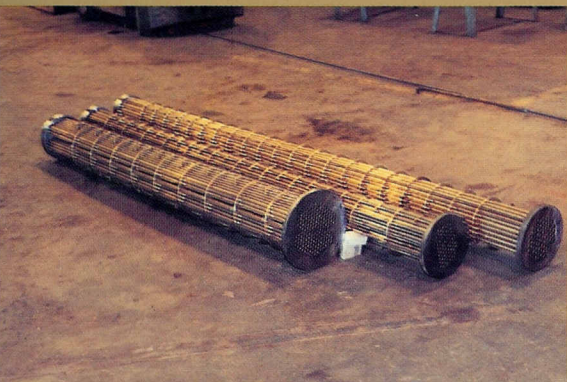

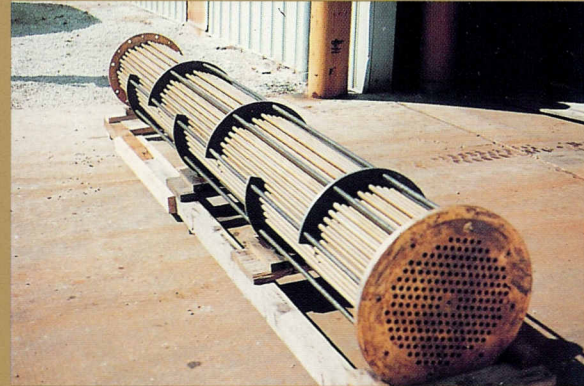

Aftercooler bundle, 6" x 9' with 3/8" O.D. Admiralty tubes. Brass tie rods and spacers are a standard on bundles. Stainless Steel skirt on the rear tubesheet strengthens the packing joint.

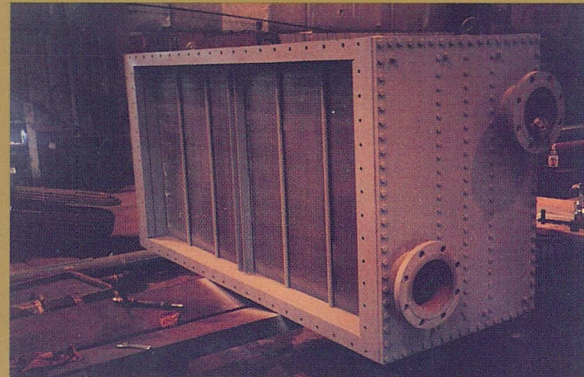

Tubesheets and Baffles. Tubesheets are made of Carbon Steel. Baffles are made of Mycrata and drilled to a tight hole tolerance to reduce wear on tubes.

Large aftercooler with 710 pcs. 5/8" O.D. Admiralty tubes. Carbon Steel tubesheets were reused.

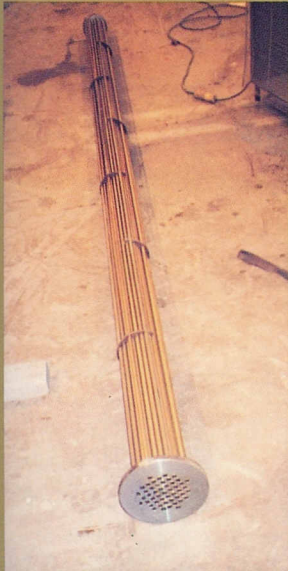

Smaller gas coolers with Admiralty tubes.

# AND AFTERCOOLERS

# FOR ALL TYPES OF AIR COMPRESSORS

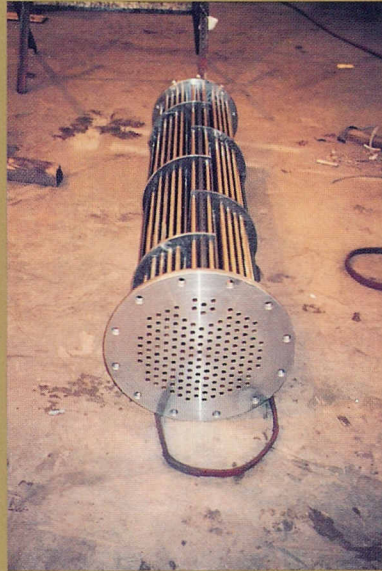

Aftercooler bundle, 6" x 12' with 1/2" O.D. Admiralty tubes, Brass tie rods and spacers. Front and rear tubesheet Carbon Steel.

Intercooler, 5" x 7' long, completed and ready for delivery.

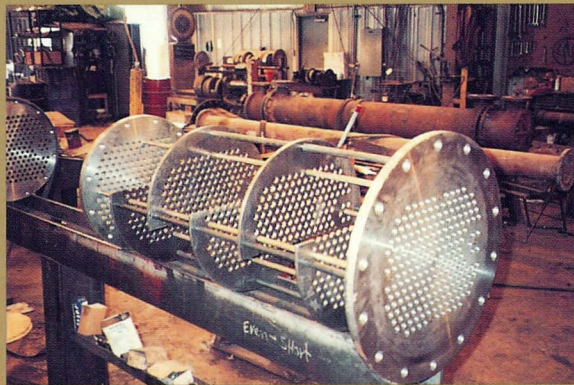

Intercooler, 18" x 74" with 5/8" O.D. Admiralty tubes, completed.

Intercooler bundle with Admiralty tubes, Copper fins and Carbon Steel tubesheets. Cast Iron side panels were reused. Tubesheets and cores are kept in stock at PES for this particular type of cooler.

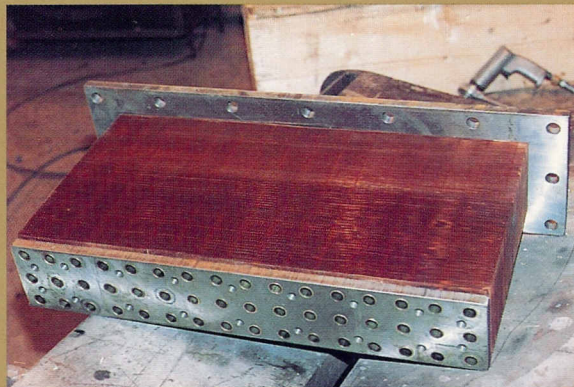

Close-up view of 6" x 9' intercooler bundle with 3/8" O.D. Admiralty tubes. Stainless steel rear skirt on tubesheet for stronger packing joint.

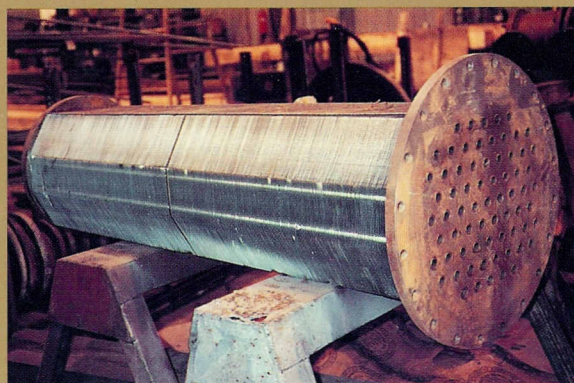

Intercooler skeleton, ready for tubing, 20" diameter x 50" long.

Intercooler bundle, 20" diameter, with Admiralty tubes and Carbon Steel baffles. Brass tubesheets were reused.

Replacement intercooler with Copper fins, Admiralty tubes and Carbon Steel tubesheets.

Intercoolers fabricated using Copper, Aluminum, Stainless steel or Carbon fins. Tube materials include Admiralty, Copper, Cupro-Nickel, Stainless steel, and Carbon Steel.

Intercooler bundle with Admiralty tubes, Carbon Steel tubesheets, and octagon-shaped Aluminum fins.

Our qualified sales and office staff is interested in assisting you in any way they can. A skillful and versatile service team provides consistently high quality workmanship, while meeting demanding schedules. A large, fully equipped, modern service center is managed by knowledgeable professionals with over sixty years cumulative experience. Our highly motivated personnel bring enthusiasm for excellence to their work and offer our customers diverse capabilities unusual in the marketplace.

PES is one of the few firms in the country to focus all the company's resources and energies on service in a highly specialized area. We understand the critical importance of minimizing downtime and meeting the customer's need for a flexible, fast and creative approach to service. Since PES was established in 1980, we have distinguished ourselves as reliable service specialists who achieve results and regard service to our customers as a professional commitment.
