PINGEL EXCHANGER SERVICE INC

Service....our commitment to you

Have you noticed a loss of cooling or leaking of your heat exchangers? **Pingel Exchanger Service, Inc.** can help you with that. We offer **new** replacement coolers, as well as cleaning, testing and repairing of existing coolers, that aren't functioning to their fullest capacity.

Pingel Exchanger Service, Inc. has been serving the power plants throughout the United States for 30 years. We have the capabilities for quick turn arounds on most standard units. **PES** warehouses a large quantity of stock tubing in the standard sizes, so we're able to get your unit back to you as fast as possible.

If your heat exchangers are not performing as they should be and you need them back in a hurry, give **Pingel Exchanger Service, Inc.** a call or send an email to: smartin@pingelxchanger.com. You can also visit our website to find the sales representative for your area:
